

# SECURE PRINT COMMUNICATIONS

SECURE WORKFLOWS THAT MAKE YOUR COMPANY MORE EFFICIENT

# OUR APPROACH

Our secure, automated workflow solutions are designed to address the unique business needs of your company. This individual workflow is driven by a print-on-demand website, exclusively developed by AGS. As a HIPAA and SOC2 compliant facility, we are equipped to handle sensitive information with the utmost security.

## DIGITAL PRODUCTION

Using digital printing technology, products are printed on the Kodak Prosper 5000XLi with speeds of 650 fpm and full-color.

## VISION TRACKING

During production, our vision technology tracks and records product information for quality.

## BINDING | FINISHING

Products go to production finishing to be saddle stitched, perfect bound, folded, cut, perforated or inserted.

## AUTOMATED DOCUMENT PROCESSING

Once secure files are pushed into a hot folder, data merges with templates to create print files, or print PDFs can be parsed to extract vital data and then setup for press.

## DATA + FILE STORAGE

Print files and extracted data are automatically transferred to the appropriate internal servers.

## SECURE FILE TRANSFER

Sensitive information travels through secure file transfer protocol and lands in an encrypted state for production.

## SECURE WORKFLOW

## STAGING | KITTING

Depending upon the product, fulfillment pick-and-pack takes place or product is prepped for delivery by mail or freight services.

## DELIVERY

Products can be mailed and shipped domestically and internationally using a variety of carriers.

## REPORTING

Clients have access to custom reports that accommodate their unique business needs.

# INDUSTRIES WE SERVE

No matter what industry, product or service, we have the technology and processes in place to protect your and your clients' privacies.

## HEALTHCARE

Patient and member engagement, high risk notifications, confirmation of benefits, annual notice of coverage, open enrollment, ID cards, welcome kits, and translation

## RETAIL

Programmatic marketing, loyalty programs, variable and offer optimized coupons (print and online), and predictive analytics

## FINANCIAL

New account welcome kits, brokerage statements, investment portfolios, and translation

## EDUCATION

Student assessment reports, standardized tests, and assessments
